

# Giant Buzzer

## Setting-up instructions

### Step 2

Locate the grub screw at the rear of each black boss on the top of the buzzer box

With the allen key provided, loosen each grub screw just a few turns

### Step 4

With the allen key provided, gently tighten both grub screws to ensure that the hand is fixed firmly into each black boss

Connect your power supply into the side of the Giant Buzzer

### Step 1

Place your Giant Buzzer onto a table or stand of your choice, ensuring that the players are able to reach the top of the hand when playing

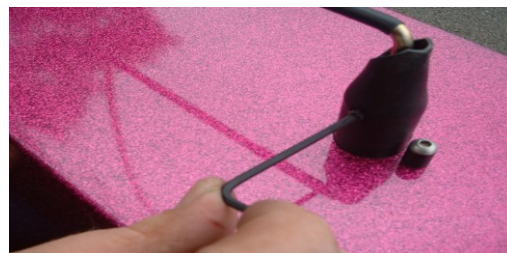

Make sure that the Giant Buzzer is within easy reach of your power supply

### Step 3

Place the wand handle over either of the black bosses

Insert each end of the Giant Hand into each of the black bosses

### Step 5

Finally, connect your Giant buzzer to your main power source, the fanfare will play, and that completes the setting-up of your Giant Buzzer.

To begin: Press start button, the 3 lights will come on, you can now begin play.  
A light will go out each time the wire shape is touched with the wand.  
Please wait 10 seconds before pressing the restart button, to commence a new game.
